Moisture (Max) %

Ingredients

Each ingredient must be named in accordance with the names and definitions adopted by the Association of American Feed Control Officials (AAFCO).

Feeding Directions

Feed continuously for 45 days. Each bird should consume an amount of medicated feed equal to one-fifth of its body weight daily. During treatment, parrots, macaws and cockatoos should be kept individually or in pairs in clean cages.

Warning

Psittacosis, avian chlamydiosis, or ornithosis is a reportable communicable disease, transmissible between wild and domestic birds, other animals and man. Contact appropriate public health and regulatory officials.

Caution

Aspergilliosis may occur following prolonged treatment.

USER SAFETY WARNINGS

Not for use in humans. Keep out of reach of children.

Questions/Comments?
